

Vehicle Wash & Chrome Cleaner

Vehicle Wash
1/4 cup bio-degradable, phosphate free liquid soap, such as Shaklee Basic-H*, and hot water. Mix in pail. Wash your car on the lawn instead of your driveway to reduce runoff from the street to the storm drain.

Chrome Cleaner
To polish chrome, apply a paste of baking soda and water with a sponge or soft cloth; after a few minutes, rinse clean and dry.

Please don't feed the storm drain.
